

# **REC Release 2.6**

## **Version 2.6.3 Released 1<sup>st</sup> June 2011.**

### **Admin**

- No changes

### **Marketing**

- Abandoned Cart: this feature is now more prominent in the Order Manager, also improvements made so that it only selects unique users for their most recent orders (between 3-27 hours previously)

### **Store & Product Management**

- Price Manager: now features an auto backup before running the price manager.
- Batch Product processor: now deletes all associated things on deletion of a product.

### **Payment Processors**

- Added a new payment processor – Card Save.

### **Content Management**

- Page Apps- New Youtube Playlist page app is now available.
- Page Apps – New Business Card app is now available.
- Sliders - When editing slider panels, the return button takes you back to the parent slider instead of the top level slider manager. Also fixed the position of the phrase “px” on the add/edit slider page.

### **Design Enhancements**

- New default testimonial design/layout added, can be changed more easily with css selectors.
- New product/category layout added to the system.
- Minor layout changes to the Email Manager.

### **Search Engine, Feeds & Data Import/Export Enhancements**

- Made several improvements to the Facebook feed including retrieval speed for large sites.
- Google product search: Improved functionality for price comparison.
- Header search bar no longer shows a first blank result in the auto complete function.

## **General Code Maintenance & Database Improvements**

- Added Australian dollars \$ (AUS) to list of ISO currencies.
- Tax/VAT can now be based on delivery address or billing address.
- PayPal IPN will now retry 5 times if the system cannot connect.
- Fixed a bug where SMS alert phone numbers would fail if they had a space between the numbers.

## **Key Release Drivers**

- 1) The first Marketplace change has been made with the ability to add businesses / featured people to the site
- 2) Australian payment processing
- 3) Tax handling for delivery addresses
